

# NiGEM Data: Online forecast and scenario data from the National Institute of Economic and Social Research

**NiGEM Data** is an easy to use interactive site designed to provide economists with the latest forecasts, economic scenarios, and access to the latest **National Institute of Economic and Social Research** macro-research.

## Benefits of subscribing to NiGEM Data include:

- **NiGEM Data** provides **instant and easy access** to the global forecasts produced by the National Institute of Economic and Social Research (NIESR) using NIESR's internationally known economic software, NiGEM, which is widely used both within the policy community (central banks and finance ministries) and the commercial sector.
- **NiGEM Data** covers over **60 countries and regions** to provide a comprehensive overview of the state of the world economy in today's climate. Variables are also grouped by sectors so cross-country analysis and comparison is easy to perform. Alternatively, individual variables can be reviewed.
- Full access to the output from **standard NiGEM scenarios** covering the more usual "what if" questions as well as **tailored scenarios** related to the most recent economic events.
- **No download limits** on the data provided – which will allow you to **produce your own reports** more easily. The website provides full view and export capabilities.
- In addition to the more standard forecast and scenario output, we also provide the ability to download our **stochastic forecast bounds**. As well as being useful in their own right, this data can be used to provide confidence intervals for your own forecasts in your reports.
- As well as data, you will receive access to the NIESR Economic Review through SAGE as well as relevant Institute articles.

Visit the NiGEM Data website at <http://nimodel.niesr.ac.uk/>

Also available from NIESR: **Monthly GDP Estimates**

NIESR uses statistical projection techniques to project UK GDP one month ahead, giving NIESR's highly respected monthly UK GDP estimates. The importance of the NIESR GDP estimates is well recognised, being widely reported in the press.

For further subscription details and the Monthly GDP Estimates please visit <http://niesr.ac.uk/monthly-gdp-estimates> or email [enquiries@niesr.ac.uk](mailto:enquiries@niesr.ac.uk)
