Politics, Philosophy & Economics is a unique forum for the interchange of methods and concepts among political scientists, philosophers and economists interested in the analysis and evaluation of political and economic institutions and practices.

1. Peer review policy

PPE operates a strictly blinded peer review process in which the reviewer's name is withheld from the author and, the author's name from the reviewer. The reviewer may at their own discretion opt to reveal their name to the author in their review but our standard policy practice is for both identities to remain concealed.

2. Article types

Politics, Philosophy & Economics publishes peer-reviewed papers of high quality using various methodologies from a wide variety of normative perspectives. Papers can be of any length, though the typical length will be about 10,000 words. Longer papers explaining, in a non-technical manner, theoretical developments in economics and their application to philosophy and politics, are especially welcome. Two-part papers will also be considered.

Of special interest are essays that are widely accessible. Scholars using more specialized techniques (of social choice theory, for example, or of game theory) are encouraged (and given space) to make their arguments and results more accessible to a broader audience.

Politics, Philosophy & Economics encourages authors to place formal or technical analyses in appendices, as far as is possible. Papers should be in English and should not have been published already, nor be currently under consideration elsewhere.

4. Journal contributor's publishing agreement

Before publication SAGE requires the author as the rights holder to sign a Journal Contributor's Publishing Agreement. SAGE's Journal Contributor's Publishing Agreement is an exclusive licence agreement which means that the author retains copyright in the work but grants SAGE the sole and exclusive right and licence to publish for the full legal term of copyright. Exceptions may exist where an assignment of copyright is required or preferred by a proprietor other than SAGE. In this case copyright in the work will be assigned from the author to the society. For more information please visit our [Frequently Asked Questions](#) on the SAGE Journal Author Gateway.

7. Acknowledgements

Any acknowledgements should appear first at the end of your article prior to your Declaration of Conflicting Interests (if applicable), any notes and your References.

All contributors who do not meet the criteria for authorship should be listed in an 'Acknowledgements' section. Examples of those who might be acknowledged include a person who provided purely technical help, writing assistance, or a department chair who provided only general support. Authors should disclose whether they had any writing assistance and identify the entity that paid for this assistance.

7.1 Funding Acknowledgement

To comply with the guidance for Research Funders, Authors and Publishers issued by the Research Information Network (RIN), *Politics, Philosophy & Economics* additionally requires all Authors to acknowledge their funding in a consistent fashion under a separate heading. All research articles should have a funding acknowledgement in the form of a sentence as

follows, with the funding agency written out in full, followed by the grant number in square brackets:

This work was supported by the Medical Research Council [grant number xxx].

Multiple grant numbers should be separated by comma and space. Where the research was supported by more than one agency, the different agencies should be separated by semi-colon, with “and” before the final funder. Thus:

This work was supported by the Wellcome Trust [grant numbers xxxx, yyyy]; the Natural Environment Research Council [grant number zzzz]; and the Economic and Social Research Council [grant number aaaa].

In some cases, research is not funded by a specific project grant, but rather from the block grant and other resources available to a university, college or other research institution. Where no specific funding has been provided for the research we ask that corresponding authors use the following sentence:

This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors.

Please include this information under a separate heading entitled “Funding” directly after any other Acknowledgements prior to your “Declaration of Conflicting Interests” (if applicable), any Notes and your References.

For more information on the guidance for Research Funders, Authors and Publishers, please visit: <http://www.rin.ac.uk/funders-acknowledgement>
