

REVISIONING CHRISTIAN UNITY

The Global Christian Forum

Revisoning Christian Unity puts on record the story of the Global Christian Forum gathering that took place on 6 – 9 November 2007 at the Jumua Conference and Country Home in Limuru, near Nairobi, Kenya. That gathering turned out to be an extraordinary and historic event, a new departure in the search for Christian unity and common witness involving all the main traditions of the Christian church worldwide. It was a decisive moment in a process that began in 1998 and since then continues to gain momentum. To preserve the memory and provide access to the full collection of documents for contemporary and future church workers, theologians, students and researchers is, therefore, the main purpose of this volume.
