6.2 SAGE Vancouver

1. General
   1. Reference numbers have full points in the reference list.
   2. Please ensure that publications are referenced in the order in which they appear in the text.
   3. Journal titles should be abbreviated according to the standard in the Index Medicus. If unsure, please check for any inconsistencies within reference lists. For STM journals, please refer also to the following: http://scieng.library.ubc.ca/coden/.
   4. Do not separate initials with spaces or full points, but add a full point after last initial before the title.
   5. Up to three authors may be listed. If more, then list the first three authors and represent the rest by et al. Fewer author names followed by et al. is also acceptable. Where et al. is used, it should always be upright, not italic in both references and textual citations.
   6. Last Names containing de, van, von, De, Van, Von, de la, etc. should be listed under D and V respectively. List them as: De Roux DP and not Roux DP, de. When cited in the main text without the first name, use capitals for De, Van, Von, De la, etc. (Van Dijk, year)
   7. Names containing Jr or II should be listed as follows:
      • Author Last Name Initial Jr (year)
      • Author Last Name Initial II (year)
