Are you leaving strokes out?

Letters that have a stroke missing are misleading. You must deal with them. This shows you how.

used much. Just up	my my mp mp us us
This 'u' cannot join properly because the final downstroke is missing.	ng my mp mp ns ns
bird char in wound	w ar
The vital downstroke is missing from 'r'. The word 'around' looks like 'wound'.	hr hr nrnr ur ur ar ar
arinal training	arin anim
The first stroke is left off 'n', 'm' and 'r' in 'animal training'. The 'm' then looks like 'n'.	hm hm hn hn hmhn
mary moderate	man
No downstrokes on 'm' and 'n'. More confusing still with small personal handwriting.	hm hm hn hn hmhn
